ONI DECLASSIFICATION/RELEASE INSTRUCTIONS ON FILE

Weekly Log, Office of Intelligence Coordination

Telecomm Censorship

ONI plans for telecomm censorship in the event of war were discussed with OCD and RQM/OIS, including ONI's procedure for securing information for establishment of a watch list on individuals, firms, publications, organizations, etc. OIC and RQM/OIS are proceeding to survey the needs of the Intelligence and Plans areas respectively in this regard prior to further discussions with ONI.

Deficiencies in SE-27

In pursuance of the DCI's memorandum on deficiencies in SE-27, discussions have been held on steps which can be undertaken to improve the indexing, translation, and abstracting of documents available on Communist China.

Classification Review

Personnel has interviewed me in connection with the super-grade review. As you know I have no present plan for filling the position of Deputy Assistant Director (GS-16). However, the present approved T/O does provide for the GS-16 and it seems to me desirable to retain the slot should it be needed at a later date in OIC, for your immediate staff, or elsewhere in the Intelligence area. If in the future a definite limitation should be placed on the number of super-grades available to the Agency, it might be difficult, or even impossible, to secure an additional allocation. Therefore, to be on the safe side, I believe we should retain this slot until we are more certain of our future needs.

JAMES Q. REBER
Assistant Director
Intelligence Coordination

Reports - weekly log.
